This Valentine's Day give your loved one the gift of a longer life!  
Nuvo E-Cigs are a Safer and Healthier alternative to regular cigarettes.

NuvoCig is a high-end electronic cigarette company that offers e-cigs with unique cartomizers that equal two packs of cigarettes. They come in 38 flavors such as Spearmint, Mango, Coffee, Vanilla, Apple, Blueberry, Atomic Fireball, Brandy, Bubble Gum, and more. Their products come in 5 nicotine levels - super high, high, medium, light, and non-nicotine. In addition to e-cigs they also offer electronic hookahs, cigars, and pipes.

My Thoughts:

I quite smoking more than a year ago and had given my kit to my daughter so when I had the opportunity to review the Nuvo kit I knew that I wanted my son to test it. He's tried several of the disposable ones with little success. He's not wanting to quit but has come to realize that with a family now that he needed an alternative to polluting the air his family was breathing. When the kit arrived it was very easy to get started. I screwed the battery on the USB charger and when it was fully charged the prefilled cartomizer just screwed onto the battery. The first few times he coughed but soon had the hang of using the e-cig and has started using it at home everyday. Without the mess and difficulty having to fill the tank it is much more user friendly. I would recommend this product to anyone looking for an alternative to regular cigarettes.
